

Install and set up VignoblExport plugin in WooCommerce

1 Contact us so that we can send you the .zip file and your API token.

You will also need to create a free Mapbox account in order to retrieve a second token. You'll find instructions in [this link](#)

2 In the "Plugins" tab, click on the "Add New Plugin" button.

The screenshot shows the WordPress 'Plugins' page. On the left is a dark sidebar menu with items: Dashboard, Jetpack, Posts, Media, Pages, Comments, Check & Log Email, WooCommerce, Products, Payments (with a red '1' badge), Analytics, and Marketing. The main content area is titled 'Plugins' and has an 'Add New Plugin' button circled in orange. Below this is a notification: 'WooCommerce database update required' with a message that the database has been updated and a link to the CLI. There are two buttons: 'Update WooCommerce Database' and 'Learn more about updates'. Below the notification is a summary: 'All (13) | Active (11) | Inactive (2) | Update Available (9) | Auto-updates Disabled'. There is a 'Bulk actions' dropdown and an 'Apply' button. A table of plugins is shown with columns for 'Plugin' and 'Description'. The table lists 'Check & Log Email' (with a 'Deactivate' link) and 'Debug Bar' (with the description 'Adds a debug me'). A yellow notification banner is present for 'Check & Log Email', stating 'There is a new version of Check & Log Email available. [View version](#)'.

3 Click on the "Upload Plugin" button.

4 Click the "Choose a file" button and select the .zip file we sent you.

If you have a plugin in a .zip format, you may install or update it by uploading it here.

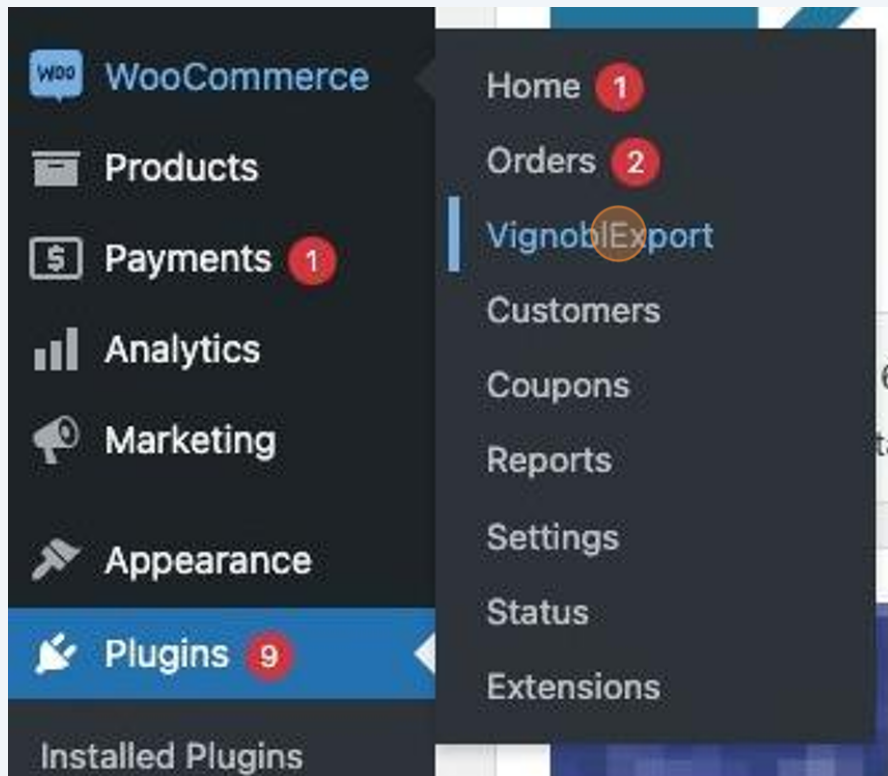

5 Click on the install button.

If you have a plugin in a .zip format, you may install or update it by uploading it here.

6 In the Woocommerce tab, click on "VignoblExport".

7 Copy / Paste your access token in the first field and test it by clicking on the test button.

	<input type="text" value="+jc0wVA/fprjeEcbG"/>	<input type="button" value="Test my acces token"/>
	<input type="text"/>	<input type="button" value="Test my Mapbox acces token"/>

8 Do the same with the Mapbox token in the second field.

	<input type="text" value="+jc0wVA/fprjeEcbGi"/> <input type="button" value="Test my acces token"/>
	<input type="text" value="pk.eyJ1ljoiaG9ub3Jl"/> <input type="button" value="Test my Mapbox acces token"/>

9 Once you have validated your tokens, click on the "Save" button.

Please fill the information below in order to be able to use the plugin

1. Key settings

Insert your VignoblExport API token	<input type="text" value="+jc0wVA/fprjeEcbGi"/>
Insert your MapBox API token	<input type="text" value="pk.eyJ1ljoiaG9ub3Jl"/>

10 A new menu will appear, fill in all the fields according to your preferences.

ion time :	<input type="text" value="1"/> ?
reference :	<input checked="" type="checkbox"/> FEDEX <input checked="" type="checkbox"/> UPS <input checked="" type="checkbox"/> DHL <input checked="" type="checkbox"/> TNT <input checked="" type="checkbox"/> CHRONOPOST
preference :	<input type="text" value="Domestic express / Pickup point"/> ▾
nd taxes at ion :	<input type="text" value="At the sender's expense"/> ▾ ?

Save Changes

12 Click on the "Settings" sub-tab of the "WooCommerce" tab.

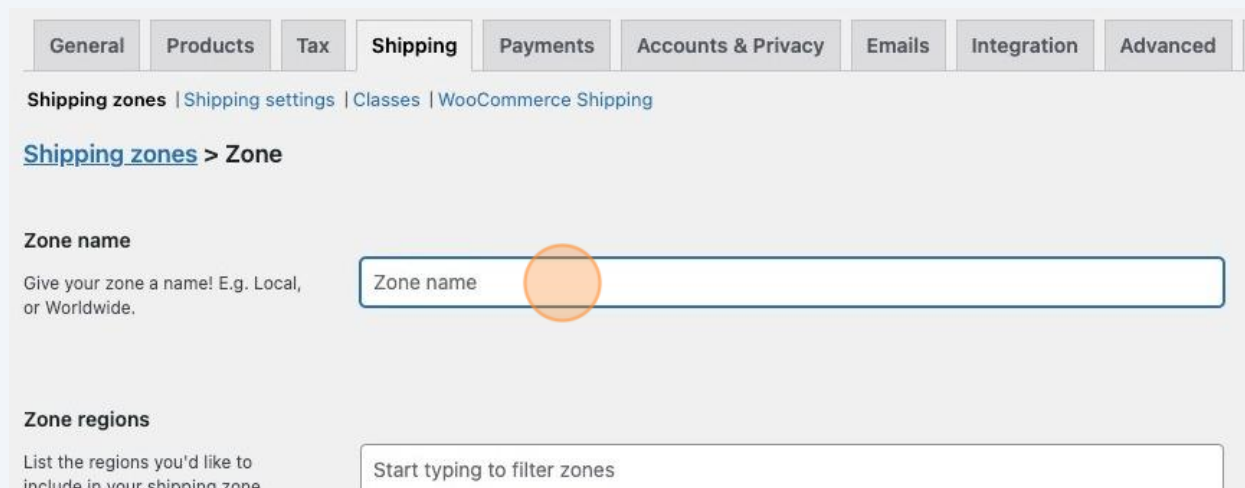

13 Click on the "Shipping" tab.

14 Click on "Edit" on the shipping method.

15 You can rename the shipping zone in this field.

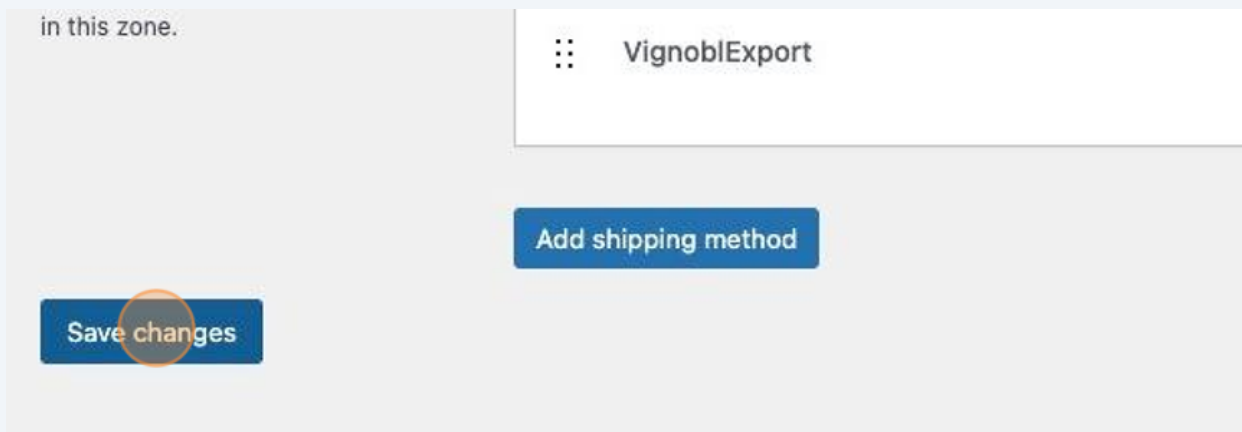

16 You can select the geographical filters specific to this shipping method by clicking here.

If you wish to apply VignobleExport offers to all destinations, leave the field blank.

17 Save your changes.

18 You now need to add information to your products.

Click on the "Products" tab and then edit one of your products.

19 You should see this menu on the product edit page.

Fill in all the informations.

Number of bottle	<input type="text" value="1"/>
Size of bottle	<input type="text" value="Standard bottle"/>
Type	<input type="text" value="Sparkling Wine"/>
Color	<input type="text" value="Rose"/>
Capacity of a single product (in mL)	<input type="text" value="750"/>
Alcohol Degree	<input type="text" value="12"/>
Producing Country	<input type="text" value="France"/>
Appellation	<input type="text" value="Mousseux"/>

20 If the information is correct, you will see this message appear.

Alcohol Degree	<input type="text" value="12"/>
Producing Country	<input type="text" value="France"/>
Appellation	<input type="text" value="Mousseux"/>

The product settings are correct.

21

If not, this message will appear. Check the information again and if the message still appears, contact our technical support team.

Alcohol Degree: 12

Producing Country: France

Appellation: Muscadet sur lie

The product settings are not correct. Please verify them and if this error persists contact us.

22

Once your information is correct, update your product.

Repeat these steps for all your products published on the shop.
