API & Accounting export

We offer two types of accounting integration features:

1 API : QUICKBOOKS & XERO

2 FILES EXPORT

1 QUICKBOOKS & XERO INTEGRATION:
an all in one solution

● All your accounting, billings, expenses and invoices are automatically exported to Quickbooks or Xero

● Real time synchronization between Quickbooks or Xero and Mediaslide. An invoice paid on Quickbooks closes it on

3 Total transparency on your Finance. Avoid input errors.

4 Speed up and improve your workflow.

mediaslide

1

A SIMPLE AND EASY PROCESS

WHAT YOU NEED TO DO-

Create your own Xero or Quickbooks account and fill up the mapping chart we provide you.

WHAT MEDIASLIDE NEEDS TO DO-

Link the accounts chart and make sure your API is always updated.

mediaslide

2

FILES EXPORT:

Match your accounting export with any software

Based on your needs, we will entirely customize the mapping of your chart of accounts in order to have your accounting on Mediaslide to be exported and match with any accounting software.

Mediaslide will generate an XLS of your journal entry exports that you will import into any accounting software such as Xero, Sage, Navision or Quickbooks.

2

A SIMPLE AND EASY PROCESS

WHAT YOU NEED TO DO-

- **create your chart of account**

- **Connect with a Mediaslide accounting member**

WHAT MEDIASLIDE NEEDS TO DO-

- **Map Mediaslide accounts with your COA**

- **Generate export according to your layout**
