Product

Name: CubicMeter
Model: LTCM-0X

Description: Battery-powered non-invasive ultrasonic water meter intended for, but not limited to, residential use. By clamping the product on an existing water pipe using hose-clamps, it measures the flow rate and temperature of the water. This is used for e.g. billing and/or visualisation of hot/cold water supply and supervision of leakages/anomalies. The total used volume is displayed on the LCD in m3. Volume, flow, temperature and leakage alerts are also transmitted wirelessly through 868MHz radio.

We declare that the product described above, to which this declaration of conformity refers to, is in conformity with the essential requirements of the following legislation:

2011/65/EU (RoHS 2), 2014/53/EU (RED), 2015/863 (RoHS 3)
